The temperature can only be reduced by approximately 10/15°C. Therefore if the temperature outside is 40°C, a coach may be able to cool down to 30°C. The process to cool the temperature takes at least 30 minutes and this can be longer if the coach is parked under the sun. Each time the coach stops to let passengers off and on the temperature will increase and the cool down process has to start again. As per EU regulation, drivers are not allowed to keep the engine on while the coach is parked, the engine can only be started once the group is on board.
